Saint John, NB, Canada

rufat.eskendarov@gmail.com

Professional Background

I am a beginner developer and I have previous work EXPERIENCE!!!! in quality control and engineering. More than a year ago I started education in the field of programming and working on the improvement in this field every day. I am currently completing my studies at the Full-Stack Coding Boot Camp of the University of New Brunswick. Here is the link (<https://github.com/RufatEskendarov>) to my GitHub repository.

I am able to develop good working relations with clients and third parties, capable of building communication on the level aimed to organize and successfully complete complex tasks in a tight timescale and safely manner. I have corporate culture experience and possess ability to perform/organize complex industrial operations and manage unexpected difficulties. I am a proactive person who works hard and pays attention to details. I am flexible, quick to pick up new skills and eager to learn from others.
